DIVISION S

S-1 REFERENCE DOCUMENTATION

Reference Documentation shall be the latest edition, including amendments and published updates, issued prior to the date of advertisement for bids or the date of request for quotations, of the following:

1. Minnesota Department of Transportation (Mn/DOT) Standard Specifications for Construction.
2. City of Rochester Ordinances.
3. City of Rochester Standard Detail Plates.
4. City of Rochester Standard Specifications for Street & Utility Construction.

S-2 DELIVERY

The material furnished under this Contract shall be delivered to any point within the City Limits of the City of Rochester, Minnesota, at such times and in such quantities as may be required of Freight on Board (F.O.B.) City trucks at the source.

The City will notify the supplier twenty-four (24) hours in advance when and where such materials shall be delivered. Materials to be picked up by the City trucks shall be available during normal construction season whenever needed. Except for emergencies, the Street Maintenance Supervisor will give the supplier at least 24 hours notice of his intention to pick up such material.

The Contractor shall furnish to the City either the original or duplicate of a numbered weight ticket. A separate ticket shall accompany each load and shall be given to the City employee at destination of delivery. The weight ticket or invoice shall show the Vendor, Vendor's address, purchaser, date, destination, City of Contractor's truck number, gross weight, tare, net weight, and/or number of tons and type of material.

The Contractor is hereby notified that the load size can and does vary. Typical batch deliveries historically have averaged around 3 cubic yards or less.

No extra payment shall be made for small load delivery, it shall be considered incidental to the contract.

S-3 MN STATE SALES TAX

The City of Rochester is now subject to the 6.875% State tax on most tangible property. Bid proposals should not include the sales tax, but the successful bidder shall bill the City the tax as a separate item on the invoice.

S-4 (1903) COMPENSATION FOR INCREASED OR DECREASED QUANTITIES

The provisions of 1903 of the Minnesota Specifications for Highway Construction dated 2005 shall not apply to any item on this Proposal.

S-5 (2461) CONCRETE

The provisions of Mn/DOT 2461 are modified in accordance with the following:

S-5.1 Mix Designation Numbers for the concrete mixtures on this Project are as follows:

Concrete Mix No 3A32

Concrete Mix No 3A32 HE High Early (30% more cement by weight)

Concrete Mix No 3A36 C Exposed Aggregate (3137 Class Aggregate C)

S-5.2 Mix Designations for concrete mixtures contain the following information:

- (1) The first digit indicates the Type Designation:
1 = non air entrained, **3** = air entrained
- (2) The second digit indicates the Grade Designation in Table 2461-1.
Grade **A**, Type **3** Anticipated Compressive Strength 3,900 psi.
- (3) The third digit indicates the Slump Range Designation in Table 2461-2.
Slump Designation **3**,
Slump Range Without Water Reducer 1-3 inches
Slump Range With Water Reducer 1-4 inches
- (4) The fourth digit indicates the Coarse Aggregate Designation in Table 2461-3.
Range **2** CA-15 to 60, Inclusive
Range **6** CA-50 to 70, Inclusive City restricts this to the **CA-60**
- (5) The last two digits if any indicate.
HE High Early (30% more cement by weight)
C Exposed Aggregate (3137 Class Aggregate C)

S-5.3 Sampling and Testing

Upon the arrival of any shipment of concrete under this contract, the City may sample and test to verify the field and laboratory analysis. Should any sample so analyzed fail to meet the specifications, after any approved adjustments necessary to meet air and slump ranges, the entire shipment may be rejected by the City and will become the Contractor's property it shall be his responsibility to make arrangements for the removal of same.
